

EIFS CHIMNEY WITH CRICKET

Cricket detailing helps divert water around the chimney and alleviates snow and ice buildup. Diverter flashing is used anywhere an area of water shed terminates into a vertical wall.

The architecture, engineering and design of the project using Bullseye products are the responsibility of the project's design professional. All systems must comply with local building codes and standards. This detail is for general information and guidance only, and Bullseye Wall Technology, Inc. specifically disclaims any liability for the use of this detail and for the architecture, design, engineering or workmanship of any project. The project design professional determines, in its sole discretion, whether this detail or a functional equivalent alternative is best suited for the project. Use of a functionally equivalent detail does not violate Bullseye's warranty. This detail is subject to change without notice. Contact Bullseye to insure you have the most recent version.
